

CARIBBEAN MATERNAL AND REPRODUCTIVE HEALTH WEEK 2026

HOSTED BY Caribbean Coalition for Maternal and Reproductive Health (CCMRH), a non-profit organization that creates spaces for Caribbean women and girls, mothers, and allies to network, collaborate, advocate, and advance maternal and reproductive health across the region.

SEPTEMBER 2026

HYBRID EVENT

OUR FOCUS

CMRHW addresses critical gaps and challenges in maternal and reproductive health across the Caribbean and creates spaces for individuals and organizations to come together to collaborate and network with an aim to advance maternal and reproductive health.

In 2024, we hosted the first ever CMRHW, which brought **together over 200 healthcare experts, providers, community members and allies** virtually and in-person to discuss topics related to maternal and reproductive health and our collective vision for the future.

OUR PURPOSE

Raising Awareness – Highlighting key maternal and reproductive health issues such as access to quality care, maternal health, period poverty, and reproductive health, as well as individuals making an impact and addressing these issues through their work and initiatives.

Networking and Strengthening Regional Collaboration – Bringing together healthcare professionals, researchers, policymakers, community organizations, individuals, and allies to share best practices and foster stronger partnerships across the Caribbean, both virtually and in-person.

Advancing Research and Evidence-Based Solutions – Providing a platform for researchers to present their work pertaining to Caribbean maternal and reproductive health and facilitating discussions on data-driven approaches to improve health outcomes.

NEW! Addressing Community Needs through Resource Distribution –Based on feedback from CMRHW 2024, CMRHW 2026 will largely consist of an in-person and online fundraising initiative to support maternal and reproductive health work across the Caribbean, consisting of equipping local organizations and communities with essential resources to improve healthcare access.

Driving Funding Opportunities – Attracting funding earmarked to support CCMRH member organizations' impactful programs

CCMRH

CARIBBEAN COALITION FOR MATERNAL AND REPRODUCTIVE HEALTH

CARIBBEAN MATERNAL AND REPRODUCTIVE HEALTH WEEK 2026

Your organization's work and mission will be highlighted across conference materials, social media, and outreach efforts. As a partner, you'll gain increased visibility among attendees, from grassroots advocates to regional leaders, helping you reach new communities, collaborators, and supporters.

WHY PARTNER?

Showcase Your Work

Share your organization's initiatives, events, research, and approaches with diverse attendees through presentations, research sharing, and collaboration opportunities.

Shape the Agenda

As a partner, you can support in our conference planning and content, ensuring that critical topics and marginalized voices are centered.

Align with a Shared Mission

As champions of maternal and reproductive health and health system strengthening in the Caribbean, this is an opportunity to align with others who share your values and broaden your reach.

Gain Insight from Experts in the Field

Hear directly from communities, implementers, and thought leaders on what's working — and what's not — in Caribbean maternal and reproductive health.

WAYS TO PARTNER WITH US!

- Sharing/ promoting CMRHW promo content on social media.
- Donating to our health & wellness products drive
- Hosting an event/speaking on a panel on maternal and reproductive health.

Interested in other partnership opportunities? Let us know!

A LOOK INTO CMRHW 2024

"It was an empowering evening with the Networking Event for Maternal and Reproductive Health Organizations hosted by CCMRH for their week of activities. Female entrepreneurs- doctors, doulas, activists, empowerment coaches, nurses, midwives etc- who focus on women's reproductive health got the opportunity to learn and share about each other's works, ventures, and goals during the evening's discussions and presentations"

-CMRHW24 Attendee

"I wanted to take a moment to express how much I appreciated attending these sessions and hearing from the many professionals working in the Caribbean region to address some of the gaps in reproductive and maternal health. Thank you for organizing this impactful conference"

-CMRHW24 Attendee
